decorative hardware

Adding optional decorative hardware will enhance the look of your new doors

Homestead Garage Doors are hand-crafted with elegance, while offering convenience and strength. In order to maintain them in excellent condition, we recommend the following care instructions:

CLEANING: Clean regularly with warm, soapy water and soft cloth only. Do not use a harsh cleanser or power washer.

PAINTING: Use high quality exterior acrylic latex paint. Follow paint manufacturer's instructions for application.

MAINTENANCE: You should conduct monthly safety checks and regular limited maintenance. To keep your door operating safely and smoothly for years to come, we recommend an annual visit from a trained door technician. Ask us for a ProDoor Systems dealer near you!
